

How much is a **SMILE WORTH?**

**To the parents of a
child with special needs,
it's priceless.**

The Friendship Circle matches children with special needs with teen volunteers for the express purpose of having fun. This unique program gives the children the strength and the confidence to overcome their challenges. At the same time, it teaches teens how much they can receive from giving. According to the children and their teen companions, the Friendship Circle represents an incredible opportunity for personal growth. Maintaining the Friendship Circle includes the help of many different people, teen volunteers, teachers, drivers and, yes, financial supporters.

Put a smile on the face of children with special needs. Contact the Friendship Circle; and soon, you'll be smiling too.
